RACP Specialists. Together
EDUCATE ADVOCATE INNOVATE

Dermatology at-a-glance

NEW CURRICULA

About the specialty

Dermatology focuses on the diagnosis and treatment of diseases of the skin, hair and nails. Dermatologists provide medical, surgical and procedural care for patients of all ages across a range of healthcare settings.

Medical dermatology
Diagnosing and managing inflammatory, infectious, autoimmune and genetic skin disorders.

Skin cancer & procedures
Managing skin cancers using dermoscopy, biopsies and procedural dermatology.

Patient-centred care
Providing expert care across inpatient, outpatient and virtual settings within multidisciplinary teams.

ENTRY REQUIREMENTS

Completion of RACP Basic Training, including the Written and Clinical Examinations, general medical registration, and an Advanced Training position in an RACP-accredited training setting or network, or an approved non-core training position.
