Overview | What is a Rotation Plan?

Definition: A work-based tool to document details of a training rotation and how the trainee intends to cover their program learning goals over the rotation period.

Purpose: The rotation plan enables trainees to self-assess learning gaps, curriculum needs, and local opportunities, fostering a shared understanding of rotation goals with the supervisor. The Rotation Plan will help to determine how time spent in training meets the clinical or professional experience requirements for a program.

Frequency: Trainees are required to complete 1 Rotation plan per rotation, equating to 4 Rotation plans per phase.

Workflow | What's involved in a Rotation Plan?

Trainee initiates

- Identify Rotation Plan information
- Add rotation supervisor details (this can be done at a later stage)
- Identify which learning goals are expected to be covered during the rotation (curriculum coverage)

Supervisor verifies

- The nominated rotation supervisor reviews the plan to ensure the rotation information is accurate.
- Supervisor returns rotation plan back to trainee

Selection | How to choose learning goals for the upcoming rotation.

- 1. Review learning goals**
Consider which goals may be achievable in this setting
- 2. Identify rotation-specific opportunities**
Brainstorm tasks and cases that could support specific goals
- 3. Goal selection**
Select 4-5 goals, including knowledge and professional behaviours
- 4. Clinical or professional experience requirements**
Ensure that the rotation/s to be undertaken meet the program requirements
- 5. Prepare for assessment**
Plan for how you'll progress and check in on these goals throughout the rotation
- 6. Align with phase progression**
Ensure selected goals support your end-of-phase progression and that you will cover all goals over the entire phase

Basic training learning goal focus - general medicine rotation

- ✓ 5 learning goals selected
- ✓ Knowledge included
- ✓ Professional behaviours (competencies) expected to be applied to every work task
- ✓ Learning and development opportunities outlined
- ✓ Assessment tools and phase progression considered

Learning goal: Clinical Assessment Opportunities:

- Ward rounds
- Handovers
- Teaching medical students

Learning goal: Communication with patients Opportunities:

- Family meetings
- Observing a senior trainee
- Explaining a new diagnosis

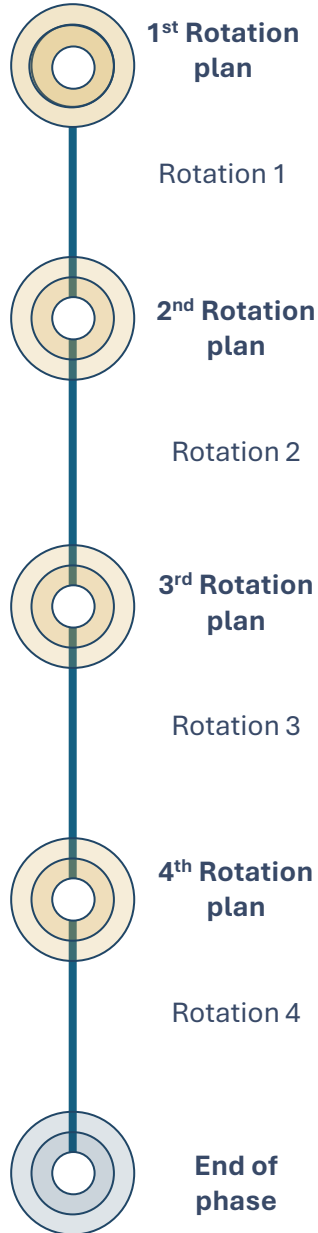

Learning goal: Documentation Opportunities:

- Discharge summaries
- Outpatient letter
- Referrals

Learning goal: Knowledge Opportunities:

- General medicine

Phase*

Linking learning opportunities to goals | Identifying rotation-specific opportunities related to selected learning goals

Type of learning opportunities		Example Learning Goals		
		Clinical assessment	Communication with patients	Documentation
Practice	practicing a task or a component of a task	<ul style="list-style-type: none"> • Ward rounds • Handovers • Teaching medical students 	<ul style="list-style-type: none"> • Taking a patient history and asking questions pertinent to the case 	<ul style="list-style-type: none"> • Writing up case notes to a chart or online system during and after a patient consultation.
Discussion and collaboration	working and collaborating with an inter-disciplinary team resolve issues	<ul style="list-style-type: none"> • Case discussions or Q&A sessions run by the lead registrar at the start of a ward round 	<ul style="list-style-type: none"> • Participate in family meetings with a multi-disciplinary team 	<ul style="list-style-type: none"> • Contacting a colleague from another specialty for advice and adding to patient history notes
Production	producing materials that show evidence of learning	<ul style="list-style-type: none"> • Discharge summaries 	<ul style="list-style-type: none"> • Information packs or print outs for patients to refer to outside of a consultation 	<ul style="list-style-type: none"> • Outpatient letters • Referrals
Acquisition and inquiry	investigating and researching information that reflect concepts being learnt	<ul style="list-style-type: none"> • Attending on site clinically-based lectures delivered 	<ul style="list-style-type: none"> • Observe a senior trainee giving discharge information or explaining a new diagnosis 	<ul style="list-style-type: none"> • Review local handover framework used for updating colleagues starting their shift at a setting

Example trainee rotation map of completed activities

		Rotation 1 - General medicine
Foundation phase	Learning goal focus i.e., 4-5 LGs including knowledge and professional behaviours per quarter	<ul style="list-style-type: none"> Professional behaviours Clinical assessment Communication with patients Documentation Knowledge
	Learning opportunities identified	<ul style="list-style-type: none"> Ward rounds Family meetings Handovers Teaching medical students Discharge summaries Outpatient letters Referrals
	Learning Capture topics	<ul style="list-style-type: none"> Professional behaviours: Review article about the cognitive bias that can impact on decision making Knowledge: Review an epidemiological study Clinical assessment: Reflect on a patient encounter
	Observation Capture topics	<ul style="list-style-type: none"> Clinical assessment: Examine a patient who has presented with vomiting and abdominal pain with focus on the physical exam Documentation: Handover documentation for the end of a shift Communication with patients: Explain a diagnosis to a patient who has received investigation results

End of phase criteria

**Refer to the LTA for specific program progression criteria*

To meet the learning goal component of the training requirements at the end of the Foundation phase

The ability to consistently perform the following Entrustable Professional Activities with indirect supervision (level 3):

- Clinical assessment
- Communication with patients
- Documentation
- Prescribing
- Investigations
- consistent behaviour in line with each of the ten areas of professional practice.
- the understanding of how to apply medical knowledge to patient care (knows how).

Observation Capture Outcome ratings from assessors

- Level 2 – can act with direct supervision
- Level 3 – can act with indirect supervision
- Level 2 – can act with direct supervision

Progression criteria | Basic training: Foundation phase

	Learning goals	Progression criteria		Completion criteria
		Foundation <i>By the end of this phase, trainees will:</i>	Consolidation <i>By the end of this phase, trainees will:</i>	Completion <i>By the end of Basic Training, trainees will:</i>
Be	01. Professional behaviours	Consistently behaves in line with all 10 domains of professional practice	Consistently behaves in line with all 10 domains of professional practice	Consistently behaves in line with all 10 domains of professional practice
Do	02. Clinical assessment	Level 3 - is able to act with indirect supervision	Level 4 - Is able to act with supervision at a distance	Level 4 - Is able to act with supervision at a distance
	03. Communication with patients	Level 3 - is able to act with indirect supervision	Level 4 - Is able to act with supervision at a distance	Level 4 - Is able to act with supervision at a distance
	04. Documentation	Level 3 - is able to act with indirect supervision	Level 4 - Is able to act with supervision at a distance	Level 4 - Is able to act with supervision at a distance
	05. Prescribing	Level 3 - is able to act with indirect supervision	Level 4 - Is able to act with supervision at a distance	Level 4 - Is able to act with supervision at a distance
	06. Transfer of care	Level 1 - Is able to be present and observe	Level 1 - Is able to be present and observe	Level 4 - Is able to act with supervision at a distance
	07. Investigations	Level 3 - is able to act with indirect supervision	Level 4 - Is able to act with supervision at a distance	Level 4 - Is able to act with supervision at a distance
	08. Acutely unwell patients	Level 1 - Is able to be present and observe	Level 1 - Is able to be present and observe	Level 4 - Is able to act with supervision at a distance
	09. Procedures	Level 1 - Is able to be present and observe	Level 1 - Is able to be present and observe	Level 4 - Is able to act with supervision at a distance
Know	10. Knowledge	Level 3 - Knows how to apply the knowledge in this knowledge guide to specialty practice (<i>knows how</i>)	Level 4 - Frequently shows they can apply knowledge in this knowledge guide to specialty practice (<i>shows how</i>)	Level 5 - Consistently applies sound knowledge in this knowledge guide to specialty practice (<i>does</i>)

Case study | What does this look like in practical application?

Trainee initiates

Dr. Billie is starting in her Foundation phase. Dr Billie knows what setting she is going to be working at and has her rotations mapped out for the year. She is starting to complete her Rotation Plan for her first rotation which is a general paediatric rotation, which is a 3-month term.

Return to Trainee?

Trainee

1. Create a Rotation Plan

1. Login to the TMP.
2. Click My Training on the top navigation bar.

3. Click on the name of your training program
4. Click on the **Training Plan** tab, the All Rotation Plans

6. Click on **Add New Rotation Plan**
7. Choose the type of rotation plan from the drop-down menu.

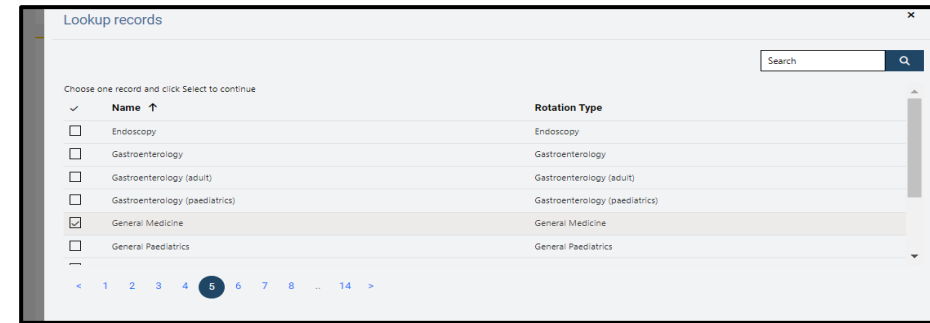

Accredited and non-accredited setting rotation plans are submitted for training that you would like counted towards your training. To determine which rotation plan to use, refer to [Accredited settings](#) on the RACP website.

For more details on interrupting your training, refer to the [RACP website](#).

8. Click save and next.
9. In the Training Details stage, add in the rotation start date, end date and the FTE of the position.
10. Select the training setting from the drop-down list.

11. Select the rotation type (sub-specialty) by clicking . **NOTE 1** you can use type into the search box or search through the list

12. It is optional to enter free text information into the Position Description and comments fields.

13. Click **Add Rotation Supervisor** and select your Rotation Supervisor by searching for their name using the magnifying icon.

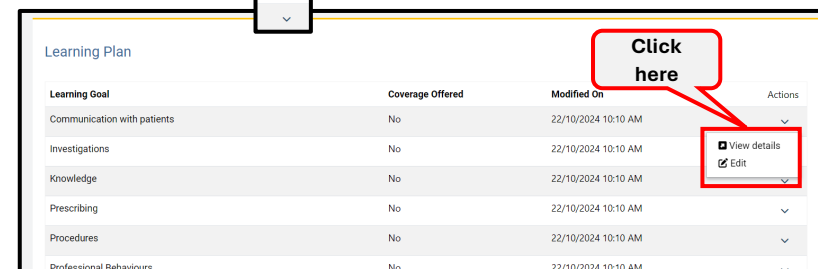

NOTE 2: you can enter this in after you submit if you do not know who your Rotation Supervisor is at the time of completing the form.

NOTE 3: If the supervisor name does not appear, tick **Cannot find Supervisor** to manually enter their details.

14. Click save and next.

15. Select the training phase (if not auto-populated) by clicking and selecting using the tick box.

16. Add in the learning goals (select yes if offered) and learning opportunities (free text) for the rotation. This action is completed per learning goal, click on Actions and then edit to add in the details.

17. Click submit to complete the form; this will automatically send a notification to your supervisor.

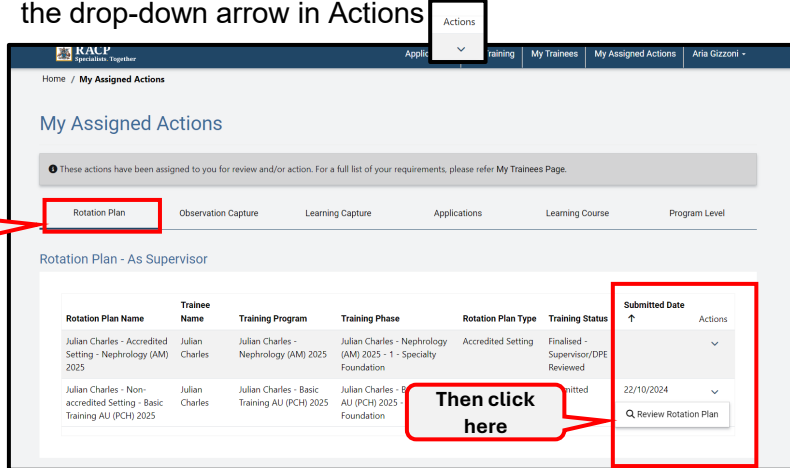

Supervisor

1. Review the Rotation Plan Details

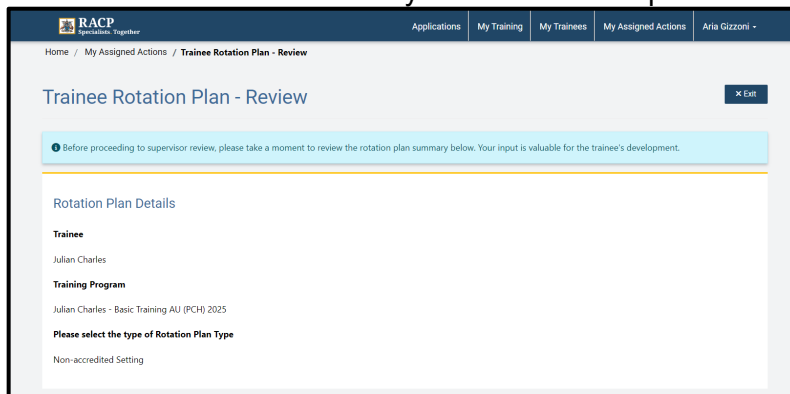

1. Login to the TMP
2. Click on My Assigned Actions

3. Click the Rotation Plan and then Review Rotation Plan using the drop-down arrow in Actions

4. Review the Rotation Plan Details fields and verify the information that was entered by the trainee as required.

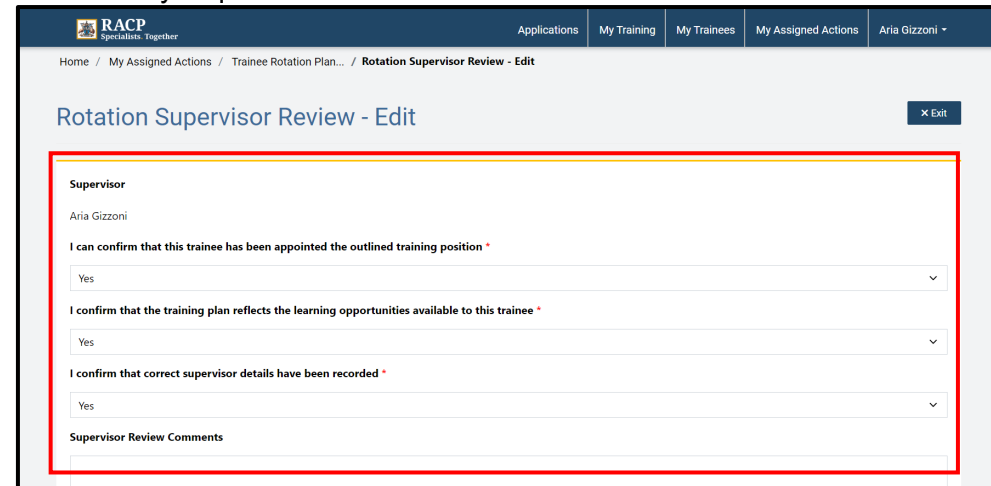

2. Verify the Rotation Plan Details

5. Scroll down to the Supervisor Declarations section where you will see your name and the status of your declaration. The status will read as 'incomplete' which means that you have not submitted your review of the trainees Rotation Plan.

6. Click on the drop-down arrow in actions  and select Review

7. Select a response to each of the drop-downs. There is a free text field to enter in any required comments

8. You can finalise the Rotation Plan or send it back to the trainee requesting more information by checking the relevant box, click 'finalised' or Return to trainee'.

Can a Rotation plan be edited/updated after it has been submitted?

Yes.

Trainees can edit a rotation plan, including learning goal opportunities and Rotation Supervisor(s), after it has been submitted. Not all fields can be edited, including the rotation type. The plan is not able to be edited after training time is certified.

Are the rotation details prefilled for the trainees?

No, trainees will need to add all rotation details to the Rotation plan.

Does the Rotation Supervisor need to review/approve a Rotation plan?

Yes, at least one nominated Rotation Supervisor will need to review/approve the trainee's Rotation plan.

Is the Rotation Supervisor(s) nominated in the rotation plan the only users that can complete the rotation progress report?

Yes, the Rotation Supervisor(s) nominated on the rotation plan are the only user(s) that can complete the rotation progress report, however the Rotation Supervisor can be updated at any time prior to this.

Who will approve the rotation plan for Basic training?

Rotation Supervisors will verify rotation plans for Basic Trainees. Trainees nominate their supervisors within the rotation plan. Rotation Supervisors are an equivalent role to the Ward Service Consultant under the PREP curricula.

Can DPE's and medical education staff within the setting assign supervisors?

Only trainees are able to update their Education Supervisor(s) in TMP.

Future TMP enhancements will allow DPEs and Training Program Coordinators (TPCs) access to update supervisor nominations.

Do Advanced Trainees need both an Education Supervisor and Rotation supervisors?

Advanced Trainees will only need to nominate Rotation Supervisors as part of their rotation plan.

Rotation Supervisors are equivalent to an Advanced Training (AT) supervisor under the PREP curricula.
