### Advanced Training in Respiratory Medicine (Paediatrics & Child Health)

**RACP**  
Specialists. Together

#### About this document

The new Advanced Training in Respiratory Medicine (Paediatrics & Child Health) curriculum consists of curriculum standards and learning, teaching, and assessment (LTA) programs.

This document outlines the Advanced Training in Respiratory Medicine (Paediatrics & Child Health) LTA programs for trainees and supervisors. It should be used in conjunction with the Advanced Training in Respiratory Medicine (Paediatrics & Child Health) [curriculum standards](#).

# Program overview

## CURRICULUM STANDARDS

The [curriculum standards](#) are summarised as 18 learning goals. The learning goals articulate what trainees need to be, do and know, and are assessed throughout training.

|             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## LTA STRUCTURE

The learning, teaching, and assessment (LTA) structure defines the framework for delivery and trainee achievement of the curriculum standards in the program. The program is structured in three phases. These phases establish clear checkpoints for trainee progression and completion.

### Entry criteria

Prospective trainees must have:

- completed RACP Basic Training, including the Written and Clinical Examinations
- general medical registration with the Medical Board of Australia if applying in Australia, or a medical registration with a general scope of practice with the Medical Council of New Zealand and a practising certificate if applying in Aotearoa New Zealand.
- an Advanced Training position in an RACP-accredited training setting or network or an approved non-core training position.

## LTA PROGRAMS

The LTA programs outline the strategies and methods to learn, teach, and assess the curriculum standards.

### Entry

- 1 [training application](#)

### Learning

Minimum 36 months FTE [professional experience](#)

- 1 [rotation plan](#) per rotation

- 1 [procedural logbook](#)

- 1 [national or international scientific meeting attendance](#)

[RACP Advanced Training Orientation resource](#)

[RACP Supervisor Professional Development Program](#)

[RACP Australian Aboriginal, Torres Strait Islander and Māori Cultural Competence and Cultural Safety resource](#)

[RACP Health Policy, Systems and Advocacy resource](#)

[Recommended resources](#)

### Teaching

- 2 [supervisors](#) per rotation

- 1 [research project supervisor](#)

### Assessment

- 12 [learning captures](#) per phase

- 12 [observation captures](#) per phase

- 4 [progress reports](#) per phase

- 1 [research project](#)

# About the program

## Purpose of Advanced Training

The RACP offers Advanced Training in 33 diverse medical specialties as part of Division, Chapter, or Faculty training programs.

The purpose of Advanced Training is to develop a workforce of physicians who:

- have received breadth and depth of focused specialist training, and experience with a wide variety of health problems and contexts
- are prepared for and committed to independent expert practice, lifelong learning, and continuous improvement
- provide safe, quality health care that meets the needs of the communities of Australia and Aotearoa New Zealand.

## Overview of specialty

Paediatric respiratory medicine encompasses diseases of the respiratory system in children (from babies, children, to young people), including the upper and lower airways, lung parenchyma, pleura, mediastinum, pulmonary circulation, chest wall, and ventilatory control system (awake and asleep). It incorporates knowledge of lung development and developmental physiology, normal and disordered respiratory structure and function, clinical respiratory diseases, and the specialised diagnostic techniques, tests, and procedures employed in clinical assessment and management.

Paediatric respiratory physicians are involved in the diagnosis and management of acute and chronic, uncomplicated, and complex respiratory conditions in children and young people. This includes children with difficult-to-treat asthma, complicated pneumonia and other respiratory infections, cystic fibrosis and bronchiectasis, and rare lung diseases. Paediatric respiratory physicians promote and advocate on public health issues at the individual, local, and national level to promote lung health. This includes the promotion of hygiene and health practices such as immunisation to reduce the transmission and severity of respiratory infections, practicing culturally safe care, and promoting and supporting nicotine and vaping cessation.

Paediatric respiratory physicians:

- **Conduct and interpret clinical, radiological, and laboratory investigations** for children presenting with a variety of respiratory issues and symptoms of sleep-disordered breathing, including lung function testing, polysomnography, and radiological imaging.
- **Diagnose and manage children in a variety of settings.** Paediatric respiratory physicians see patients with a wide range of respiratory diseases and conditions while working across several settings (including academic, public clinics and hospital, private clinics and hospital, and pulmonary function and scientific laboratories), situated in metropolitan and/or outreach communities, including telehealth environments.

- **Perform interventions** including oxygen therapy, non-invasive ventilation, aerosol therapy, and bronchoscopy.
- **Provide acute, longitudinal, transition, and end-of-life care.** Paediatric respiratory physicians establish long-term therapeutic relationships with children and their families, utilising a multidisciplinary approach. They work to manage and ease patient discomfort both acutely and in the practice of end-of-life care, and support young people in their transitions to adult care.
- **Apply a multidisciplinary approach.** Paediatric respiratory physicians are required to work effectively as part of a multidisciplinary team, including sharing care within a clinical care network for individual children. They may be called upon to be the team leader and have a collaborative approach focused on building caring networks and relationships.
- **Work sensitively with a variety of patients.** Paediatric respiratory physicians work with children and their carers to address determinants of health that affect them (including social and cultural determinants of health) and their access to needed health services or resources, providing education and support in a professional, empathic, and non-judgemental manner.
- **Demonstrate strong communication skills.** Paediatric respiratory physicians must develop a personable interviewing technique and an ability to relate to children, young people, and their carers. It is also essential that they appreciate when referral to a more appropriate or more qualified practitioner in general paediatric and/or a particular subspecialty is necessary.
- **Manage resources for the benefit of patients and communities.** Paediatric respiratory physicians apply a biopsychosocial approach to ensure the delivery of efficient, cost-effective, and safe care for the benefit of their patients and communities (metro and regional).
- **Apply a scholarly approach.** Paediatric respiratory physicians conduct academic research to discover better ways of understanding, diagnosing, treating, and preventing disease in children and young people. They apply research to improve the treatment and management of children and young people.

## Supervising committee

The program is supervised by the Advanced Training Committee in Respiratory Medicine and Sleep Medicine and the Aotearoa New Zealand Advanced Training Subcommittee in Respiratory Medicine and Sleep Medicine.

## Qualification

Trainees who successfully meet the completion standards and criteria of this program will be awarded Fellowship of the Royal Australasian College of Physicians (FRACP).

# Learning goals and progression criteria

## Learning, teaching, and assessment structure

The learning, teaching and assessment structure defines the framework for delivery and trainee achievement of the curriculum standards in the Advanced Training program.

Advanced Training is structured in three phases. These phases will establish clear checkpoints for trainee progression and completion.

- 1 Specialty foundation**
  - Orient trainees and confirm their readiness to progress in the Advanced Training program.
- 2 Specialty consolidation**
  - Continue trainees' professional development in the specialty and support progress towards the learning goals.
- 3 Transition to Fellowship**
  - Confirm trainees' achievement of the curriculum standards, completion of Advanced Training, and admission to Fellowship.
  - Support trainees' transition to unsupervised practice.

Figure: Advanced Training learning, teaching, and assessment structure

- An **entry decision** is made before entry into the program.
- **Progress decisions**, based on competence, are made at the end of the specialty foundation and specialty consolidation phases of training.
- A **completion decision**, based on competence, is made at the end of the training program, resulting in eligibility for admission to Fellowship.

Advanced Training is a **hybrid time- and competency-based training program**. There is a minimum time requirement of full-time equivalent experience, and progression and completion decisions are based on evidence of trainees' competence.

## Entry criteria

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Entry attributes</b> | <p>Prospective trainees can demonstrate:</p> <ul style="list-style-type: none"><li>• a commitment and capability to pursue a career as a paediatric respiratory physician</li><li>• the ability and willingness to achieve the common learning goals for Advanced Training:<ul style="list-style-type: none"><li>• team leadership</li><li>• supervision and teaching</li><li>• the professional behaviours, as outlined in the Competencies</li></ul></li></ul>                                                                                                                       |
| <b>Entry criteria</b>   | <p>Prospective trainees must have:</p> <ul style="list-style-type: none"><li>• completed RACP Basic Training, including the Written and Clinical Examinations</li><li>• general medical registration with the Medical Board of Australia if applying in Australia, or a medical registration with a general scope of practice with the Medical Council of New Zealand and a practising certificate if applying in Aotearoa New Zealand.</li><li>• an Advanced Training position in an RACP-accredited training setting or network or an approved non-core training position.</li></ul> |

## Progression criteria

To progress to the next phase or to complete the program, trainees must demonstrate:

- the ability to plan and manage their learning and to complete their learning and assessment requirements in a timely manner
- achievement of the learning goals to the levels outlined in the [learning goal progression criteria](#).

Training committees or delegated progress review panels will consider evidence supporting trainees' achievement of the progression criteria and make progress decisions.

If criteria have not been met, committees or panels may decide to place conditions on trainees' progression to the next phase of training or not to progress trainees until all criteria have been achieved.

## Learning goals

The [curriculum standards](#) are summarised as **18** learning goals.

The learning goals articulate what trainees need to be, do, and know, and are assessed throughout training on a five-point scale. This scale determines the expected standard for each learning goal at the end of each training phase. Trainees must meet these standards to progress to the next phase or complete the program.

Learning and assessment tools are linked to the learning goals which allows trainees to demonstrate competence across each learning goal.

| Levels                                                        | 1                                                                                    | 2                                                                                  | 3                                                                                    | 4                                                                                           | 5                                                                                 |
|---------------------------------------------------------------|--------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|

## Developmental & psychosocial training (Paediatrics & Child Health Division)

### Purpose

Developmental and Psychosocial (D&P) Training assists trainees to develop a sophisticated understanding of child development, encompassing physical, cognitive, emotional, behavioural and social areas, which should be gained from the perspective of the child within the family and in the context of the community.

A mandatory period of D&P Training for all paediatricians was introduced to ensure that the changing nature of paediatric practice is reflected in the training programs. D&P is a requirement for all paediatric trainees to receive FRACP and may be completed during either Basic or Advanced Training.

### Review of D&P

The College is working to redefine how D&P training will be embedded in the new training programs. This will include defining learning goals, and new options for trainees to achieve these learning goals, which will be embedded into the Basic and Advanced Training programs.

Alternative options for completing D&P training and a timeline for implementation will be communicated when available. New D&P requirements will be developed, and any updates will be included in the relevant curricula standards and learning, teaching and assessment programs. Trainees and supervisors will be informed of updates with sufficient notice of any changes to ensure no disadvantage.

Until alternatives are available, **it is important that trainees plan to complete the requirement for D&P training through one of the time-based options currently available, to ensure eligibility for admission to Fellowship on completion of the requirements of Advanced Training.** Trainees must satisfactorily complete this requirement to be eligible for admission to Fellowship under the Paediatrics & Child Health Division.

### Aotearoa New Zealand

#### Requirement

The Developmental and Psychosocial (D&P) requirement can be met by completing a 3 month full-time equivalent rotation in relevant specialties or by documenting the management of suitable cases in a logbook.

#### Options available

##### Option A: 3 month FTE rotation

The specialties listed below outline the suitable rotations to meet this requirement.

- Adolescent medicine
- Child protection and adolescent psychiatry
- Community paediatrics
- Developmental/behavioural paediatrics
- Disability/rehabilitation paediatrics

Rotations not suitable for D&P Training:

- Paediatric gastroenterology\*
- Paediatric neurology\*\*

\* Exceptions may be possible if rotation is specifically designed to have a D&P Training focus. However, this would be unlikely in Basic Training and would require specific prospective approval.

\*\* Rotation usually not possible unless there is significant developmental focus. Not possible at SHO level.

These areas reflect a holistic approach to the health problems of children and young people. An understanding of the roles and inter-relationships of many allied health and community-based services, in a way that distinguishes them from experience in organ-based specialties, is required.

### **Option B: documentation of suitable cases in a logbook**

Alternatively, trainees can gain the required training by managing suitable cases over a longer period with appropriate supervision. All training must be documented in a logbook.

Trainees must keep a record of at least 12 cases they have personally managed under supervision.

Logbook entries must cover a range of conditions:

- developmental problems, with a focus on the response of parents, families and caregivers to the diagnosis and ongoing care of the child with special needs.
- pervasive developmental disorders.
- general learning disability — the behaviour problems that arise secondary to this condition.
- chronic illness — behavioural and psychological problems resulting from chronic illness, and parent and family difficulties resulting from chronic conditions, such as diabetes, epilepsy, chronic arthritis, chronic respiratory disease, physical disability and childhood cancer.
- common behavioural paediatric problems such as enuresis, encopresis, sleep disturbance, eating difficulties, attention deficit and hyperactivity disorder, conduct disorder, anxiety, depression, and pre-school behavioural adjustment disorders.

Trainees are to provide a summary of the issues involved in each case and how they were managed. Copies of clinical letters are not appropriate.

Cases will generally accumulate over a 2-year period and each case record must be signed by the supervisor.

### **Resources**

[Psychosocial Logbook example](#) (PDF)  
[Psychosocial Logbook template](#) (DOC)

## **Australia**

### **Requirement**

Developmental & psychosocial (D&P) training is currently a time-based requirement consisting of a minimum of six months full-time equivalent (FTE) in one or more of the following areas:

- Developmental/behavioural paediatrics

- Community paediatrics
- Disability/rehabilitation paediatrics
- Child and adolescent psychiatry
- Child protection
- Palliative medicine

These areas reflect a holistic approach to the health problems of children and young people. An understanding of the roles and inter-relationships of many allied health and community-based services, in a way that distinguishes them from experience in organ-based specialties, is required.

### Options available

#### Approved training options

- **Option A: A prospectively-approved psychosocial training position (6 months full-time equivalent).** This can be completed as:
  - 2 x 3-month terms, or
  - 1 x 6-month block, or
  - a continuous part-time position, such as 2.5 days a week for 12 months (A conglomerate of experience for shorter time periods adding up to 6 months will not be accepted.)
- **Option B: A prospectively approved rural position (6 months full-time equivalent).** Complete the 6 months of training comprised of a documented weekly program in the psychosocial training areas with an appropriate level of supervision.
- **Option C: Attendance at a prospectively-approved clinic AND completion of an approved learning module.** The D&P training requirement can be completed in one of these formats:
  - 2 x sessions a week for 18 months, or
  - 1 x session a week for 3 years

An approved clinic is determined to be a clinic where other health and/or educational professionals are involved, and supervision is directed by a paediatrician who is experienced in one or multiple areas of D&P Training, such as behaviour, development, rehabilitation and child protection.

The approved learning module may be **one** of the following:

- Evidence of attendance at a lecture series at a recognised institution, related to the D&P Training areas; or
- 3 x referenced case reports/essays demonstrating comprehensive understanding of 3 different issues in the areas of psychosocial training – for example rehabilitation or community paediatrics (1500 to 2000 words each); or
- Completion of the Griffith Mental Developmental Scales course.

Other prospectively approved modules may be considered.

## Aotearoa New Zealand and Australia

### How to complete it

Trainees must provide details of how they completed the Developmental & Psychosocial (D&P) training requirement by submitting information via [TMP](#) as a Learning theme.

To do this, trainees must:

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Rotation plan

|                                                                                                                                                                                                                                                          |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Requirement</b>                                                                                                                                                                                                                                       |
| 1 x rotation plan per rotation.                                                                                                                                                                                                                          |
| <b>Description</b>                                                                                                                                                                                                                                       |
| The rotation plan is a work-based tool to document details of a training rotation and how a trainee intends to cover their program learning goals over the rotation period.                                                                              |
| <b>Purpose</b>                                                                                                                                                                                                                                           |
| The rotation plan helps trainees evaluate their learning gaps, curriculum needs, and local opportunities to meet expected standards. It is validated by College staff to ensure it aligns with the professional experience requirements for the program. |
| <b>How to complete it</b>                                                                                                                                                                                                                                |
| Trainees can submit a rotation plan in <a href="#">TMP</a> under the training plan tab.                                                                                                                                                                  |

Trainees undertaking their first rotation of their training program must select the following checkbox, 'The rotation start date is also the start date of my Training Program' to record the start date for their training program.

If a trainee is expecting a learning goal to be covered during a rotation, select 'yes' for 'coverage offered' and outline the learning opportunities available. See these [completed rotation plans](#) for examples of the learning opportunities that may be available for each learning goal.

This information will be used by supervisors and overseeing RACP training committee to determine the relevance of the rotation to the program's professional experience requirements.

Trainees should upload a copy of the position description and any other supporting information that outlines the training position being undertaken. This should include regular/weekly activities that the trainee will be undertaking during the rotation (e.g. timetable).

Trainees can also set custom goals to define personal objectives that they want to achieve during the rotation. These goals should be measurable and align with the trainee's professional objectives, skill gaps, or personal interests.

Trainees need to nominate their rotation supervisors in the plan, and they will need to approve the plan in TMP via 'my assigned actions'.

For more information on how to complete a rotation plan review the [training resources](#).

### Due dates

**28 February** for rotations in the first half or whole of the year.

**31 August** for rotations in the second half of the year.

## Procedural logbook

### Requirement

1 x procedural logbook, completed over the course of Advanced Training.

### Description

The logbook is a learning tool that helps trainees capture data about and reflect on specific workplace experiences. The logbook tool is currently under development. More information on the tool and how to complete it will be available in 2025.

### How to complete it

Trainees are to log all procedures completed over the course of training, using the prescribed logbook template.

Trainees can use the logbook template to record data and reflect on workplace experiences. The logbook can be submitted via [TMP](#) under the assessment requirements tab

## National or international scientific meeting attendance

| Requirement                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Attend 1 x national or international scientific meeting, before the end of Advanced Training.                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Purpose                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <p>Attending a national and international meeting or conference is one of the ways for trainees to remain on the forefront of the latest respiratory research. Meeting attendance facilitates continuous learning and allows opportunities for networking.</p> <p>Trainees are expected to present their research at the meeting which will further enhance their professional behaviour, learning and teaching, communication skills, and sharing of knowledge with their fellow scientific community.</p>         |
| How to complete it                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Trainees are to submit evidence of attendance in the <a href="#">TMP</a> under the assessment requirements tab.                                                                                                                                                                                                                                                                                                                                                                                                     |

## Courses

### RACP Advanced Training Orientation resource

| Requirement                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 x RACP Advanced Training Orientation resource, completed during the first 6 months of the specialty foundation phase.                                                                                                                                                                                                                                                                                                   |
| Description                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p>This resource is designed to orient trainees to Advanced Training. It covers areas such as transition to Advanced Training, training and assessment, and trainee support. It's a 'one-stop shop' that trainees can return to if they ever want to find a useful resource, or need a refresher on the supporting resources, policies, and systems available to them.</p> <p>Estimated completion time: 1-1.5 hours.</p> |

### Purpose

The resource is intended to support trainees to successfully navigate their transition to Advanced Training and prepare for unsupervised practice as a specialist physician.

### How to complete it

Trainees can complete the [Advanced Training Orientation resource](#) on RACP Online Learning.

Trainees will receive a certificate of completion on RACP Online Learning when they complete the resource. Completion of this requirement will automatically update in [TMP](#).

## RACP Supervisor Professional Development Program

### Requirement

1 x RACP Supervisor Professional Development Program (SPDP), consisting of 3 workshops, completed by the end of Advanced Training.

### Description

The SPDP consists of 3 workshops:

- Practical skills for supervisors
- Teaching and learning in healthcare
- Work-based learning and assessment

See [Supervisor Professional Development Program](#) for more information on the program.

### Purpose

This requirement aims to prepare trainees for a supervisory/educator role in the workplace and supports trainees' learning aligned with the "team leadership" and "supervision and teaching" learning goals.

### How to complete it

[Register for a supervisor workshop](#).

Trainees can complete the SPDP in three ways:

- Virtual workshops
- Face-to-face workshops
- Online courses.

Workshops are free and presented by volunteer Fellows trained in SPDP facilitation.

## RACP Australian Aboriginal, Torres Strait Islander and Māori Cultural Competence and Cultural Safety resource

### Requirement

1 x Australian Aboriginal, Torres Strait Islander and Māori Cultural Competence and Cultural Safety resource, if not completed during Basic Training.

Trainees must complete the resource by the end of their Advanced Training however it's recommended they complete it before the specialty consolidation phase.

### Description

The Australian Aboriginal, Torres Strait Islander and Māori Cultural Competence and Cultural Safety resource teaches best practice medicine for Aboriginal, Torres Strait Islander and Māori patients through reflection on the trainee's own cultural values and recognition of their influence on professional practice.

Estimated completion time: 2 hours.

### Purpose

This resource supports trainees' learning aligned with the "professional behaviours" learning goal. Specialist training requires trainees to:

- examine their own implicit biases
- be mindful of power differentials
- develop reflective practice
- undertake transformative unlearning
- contribute to a decolonisation of health services for Indigenous peoples

### How to complete it

Trainees can complete the [Australian Aboriginal, Torres Strait Islander and Māori Cultural Competence and Cultural Safety resource](#) on RACP Online Learning.

Trainees will receive a certificate of completion on RACP Online Learning when they complete the resource. Completion of this requirement will automatically update in the Training Management Platform.

## RACP Health Policy, Systems and Advocacy resource

### Requirement

1 x RACP Health Policy, Systems and Advocacy resource, completed by the end of Advanced Training.

### Description

This resource has been designed for Advanced Trainees, as an introduction to health policy, systems, and advocacy.

Estimated completion time: 5 hours.

### Purpose

The resource aims to support Advanced Trainees in meeting the health policy, systems, and advocacy professional standard and underpinning competencies outlined in their specialty curriculum, and to enable connections between Advanced Trainees' own practice and the nature and attributes of local, national, and global health systems.

### How to complete it

Trainees can complete the [RACP Health Policy, Systems and Advocacy resource](#) on RACP Online Learning.

Trainees will receive a certificate of completion on RACP Online Learning when they complete the resource. Completion of this requirement will automatically update in the Training Management Platform.

# Teaching

## Supervision

### Rotation supervisors

Trainees are to have 2 x supervisors per rotation, including:

- Minimum 1 x supervisor, who is a Fellow of the RACP in Respiratory Medicine

### Nominating eligible supervisors

Trainees will be asked to nominate rotation supervisors as part of their learning plan. Trainees are required to nominate [eligible supervisors](#) who meet the above requirements.

A list of eligible supervisors can be found on [MyRACP](#). The list is not available for post-Fellowship trainees. Post-Fellowship trainees can [contact us](#) to confirm supervisor eligibility.

### Research project supervisor

Trainees are to nominate 1 x research project supervisor over the course of Advanced Training. Recommended to be nominated before the specialty consolidation phase.

The research project supervisor guides trainees with their project choice, method, data analysis and interpretation, and quality of written and oral presentation.

More information about this role can be found in the [Advanced Training research project guidelines](#).

## Assessment

### Assessment blueprint

This high-level assessment program blueprint outlines which of the learning goals *could be* and *will be* assessed by the assessment tools.

| Learning goals                                                                                                     | Assessment tools |                     |                 |                  |
|--------------------------------------------------------------------------------------------------------------------|------------------|---------------------|-----------------|------------------|
|                                                                                                                    | Learning capture | Observation capture | Progress report | Research project |
| 1. Professional behaviours                                                                                         | Could assess     | Could assess        | Will assess     | Will assess      |
| 2. Team leadership                                                                                                 | Could assess     | Could assess        | Will assess     | x                |
| 3. Supervision and teaching                                                                                        | Could assess     | Could assess        | Will assess     | x                |
| 4. Quality improvement                                                                                             | Could assess     | Could assess        | Will assess     | Could assess     |
| 5. Clinical assessment and management                                                                              | Could assess     | Could assess        | Will assess     | x                |
| 6. Management of transitions from paediatric to adult care                                                         | Could assess     | Could assess        | Will assess     | x                |
| 7. Acute paediatric respiratory care                                                                               | Could assess     | Could assess        | Will assess     | x                |
| 8. Longitudinal care of patients with chronic respiratory conditions, from birth to the adolescent and young adult | Could assess     | Could assess        | Will assess     | x                |
| 9. Communication with patients and their parents / caregivers, and other health professionals                      | Could assess     | Could assess        | Will assess     | x                |

|                                                                                   |              |              |             |              |
|-----------------------------------------------------------------------------------|--------------|--------------|-------------|--------------|
| <b>10. Prescribing</b>                                                            | Could assess | Could assess | Will assess | x            |
| <b>11. Procedures</b>                                                             | Could assess | Could assess | Will assess | x            |
| <b>12. Investigations</b>                                                         | Could assess | Could assess | Will assess | x            |

## Learning capture

| Requirement                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12 x learning captures per phase of training, minimum 1 per month.<br><i>Refer to <a href="#">RACP Flexible Training Policy</a> for further information on part-time training (item 4.2).</i>                                                                                                                                                                     |
| Description                                                                                                                                                                                                                                                                                                                                                       |
| The learning capture is a work-based assessment that involves a trainee capturing, and reflecting on, professional development activities, including evidence of work-based learning linked to specific learning goals                                                                                                                                            |
| Purpose                                                                                                                                                                                                                                                                                                                                                           |
| The learning capture assists trainees to reflect on experiences, promotes critical thinking, and connects these to a trainee's learning goals and professional development. It is also a valuable mechanism for trainees to enhance their understanding of complex topics and less common experiences that may be difficult to encounter in traditional training. |
| How to complete it                                                                                                                                                                                                                                                                                                                                                |
| The learning capture is completed via <a href="#">TMP</a> under the assessment requirements tab.<br>For more information on how to complete a learning capture review the <a href="#">training resources</a> .                                                                                                                                                    |

## Observation capture

| Requirement                                                                                                                                                                                                                       |

| 12 x observation captures per phase of training, minimum 1 per month.<br><i>Refer to <a href="#">RACP Flexible Training Policy</a> for further information on part-time training (item 4.2).</i>                                  |
| Description                                                                                                                                                                                                                       |
| An observation capture is a work-based assessment which provides a structured process for trainees to demonstrate their knowledge and skills in real-time workplace situations, while assessors observe and evaluate performance. |
| Purpose                                                                                                                                                                                                                           |
| The purpose of the observation capture is to assess skill development, track progress, and provide targeted feedback for improvement for trainees against specific learning goals.                                                |
| How to complete it                                                                                                                                                                                                                |
| Observation captures are completed via <a href="#">TMP</a> under the assessment requirements tab.<br>For more information on how to complete an observation capture review the <a href="#">training resources</a> .               |

## Progress report

| Requirement                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 1 x research project over the course of Advanced Training.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <p>The research project should be one with which the trainee has had significant involvement in designing, conducting the research and analysing data. Trainees may work as part of a larger research project but must have significant input into a particular aspect of the study.</p> <p>Research projects are not required to be specialty-specific but are required to be broadly relevant to trainees' area of specialty. Broadly relevant can be defined as topics that can enhance, complement and inform trainees' practice in the chosen specialty.</p> <p>Three types of research projects are accepted:</p> <p>Three research project types are accepted:</p> <ul style="list-style-type: none"><li>• research in:<ul style="list-style-type: none"><li>○ human subjects, populations and communities and laboratory research</li><li>○ epidemiology</li><li>○ education</li><li>○ leadership</li><li>○ medical humanities</li><li>○ areas of study which can be applied to care of patients or populations</li></ul></li><li>• audit</li><li>• systematic review</li></ul> |

The trainee must have a research project supervisor who may or may not be one of their rotation supervisors.

The research project is marked by the training committee as pass, fail or resubmit and trainees receive qualitative feedback about their project. The research project should be submitted for marking by the end of the specialty consolidation phase to allow time for resubmission in the transition to Fellowship phase if the project is unsatisfactory.

### Purpose

The research project enabled trainees to gain experience in research methods; in interpretation of research literature; in participation in research at some stage of their career; and to develop quality improvement skills. Submission of a research project provides evidence of the skills of considering and defining research problems; the systematic acquisition, analysis, synthesis and interpretation of data; and effective written communication.

### How to complete it

Detailed information on how to complete the research project can be found in the [Advanced Training research project guidelines](#) and can be submitted via [TMP](#) under the assessment requirements tab.

There are 3 deadlines that must be followed when submitting an Advanced Training Research Project. Trainees can choose to submit their Research Project on any of these 3 dates during the year.

**Australia:** 31 March, 15 June, or 15 September.

**Aotearoa New Zealand:** 31 March, 15 June, or 15 December.

# Roles and responsibilities

## Advanced Trainee

| Role                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A member who is registered with the RACP to undertake one or more Advanced Training programs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Responsibilities                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <ul style="list-style-type: none"><li>• Maintain employment in accredited training settings.</li><li>• Act as a self-directed learner:<ul style="list-style-type: none"><li>○ be aware of the educational requirements outlined in the relevant curricula and education policies</li><li>○ actively seek and reflect on feedback from assessors, supervisors, and other colleagues</li><li>○ plan, reflect on, and manage their learning and progression against the curricula standards</li><li>○ adhere to the deadlines for requirements of the training program.</li></ul></li><li>• Actively participate in training setting / network accreditation undertaken by the RACP.</li><li>• Complete the annual Physician Training Survey to assist the RACP and training settings with ongoing quality improvement of the program.</li></ul> |

## Rotation supervisor

| Role                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A consultant who provides direct oversight of an Advanced Trainee during a training rotation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Responsibilities                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <ul style="list-style-type: none"><li>• Be aware of the educational requirements outlined in the relevant curricula and education policies.</li><li>• Oversee and support the progression of Advanced Trainees within the setting:<ul style="list-style-type: none"><li>○ Assist trainees to plan their learning during the rotation.</li><li>○ Support colleagues to complete observation captures with trainees.</li><li>○ Provide feedback to trainees through progress reports.</li></ul></li><li>• Actively participate in rotation accreditation undertaken by the RACP.</li><li>• Complete the annual Physician Training Survey to assist the RACP and training settings with ongoing quality improvement of the program.</li></ul> |

## Assessor

| Role                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A person who provides feedback to trainees via the Observation Capture or Learning Capture tool. This may include consultants and other medical professionals, allied health professionals, nursing staff, patients and their families, administrative staff, and consumer representatives. |
| Responsibilities                                                                                                                                                                                                                                                                            |

- Be aware of the learning goals of the training program.
- Provide feedback to support the progression of Advanced Trainees within the setting:
  - Complete Observation Captures.
  - Provide feedback on Learning Captures as required.

## Progress Review Panel

| Role                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>A group convened to make evidence-based decisions on Advanced Trainees' progression through and certification of training.</p> <p>More information on Progress Review Panels will be available in 2025.</p>                                                                              |
| Responsibilities                                                                                                                                                                                                                                                                            |
| <ul style="list-style-type: none"> <li>• Review and assess trainees' progress.</li> <li>• Communicate and report on progression decisions.</li> <li>• Monitor delivery of the Advanced Training program.</li> <li>• Ensure compliance to regulatory, policy and ethical matters.</li> </ul> |

## RACP oversight committees

| Role                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
