

Trainee & Program Details

Training Program

Palliative Medicine (Adult medicine and Chapter) 2026

Training Program Phase *

Specialty Consolidation

Date of Observation *

03/03/2026

Observation Capture Details

Observation Capture Type *

Interdisciplinary collaboration

Summary of Activity *

I led a multidisciplinary team meeting for a patient, coordinating contributions from the GP, pharmacist, and nurse to discuss the management of clinical needs. I chaired the meeting, with a focus on patient centred care and ensuring that all team members expertise was heard and considered. The meeting was collaborative and ran well with agreements made and next steps decided on for the ongoing management of the patients' clinical needs.

Complexity *

2 - Medium

Primary Learning Goal *

2: Team leadership

Learning Goal Components

Select the learning goal components observed during the Observation Capture.

Name	Observed	
facilitate patient- centred care and carer involvement	Yes	No
communicate effectively	Yes	No
collaborate with the team to build a positive work culture with shared values and priorities	Yes	No
articulate and appropriately delegate individual responsibilities based on expertise and resources in the team	Yes	No
prioritise own workload	Yes	No
apply knowledge of clinical practice	Yes	No
address and manage conflict when it arises	Yes	No

Trainee Reflection

The below section is to be filled in by the Trainee

What did you do well? *

I created an open and collaborative environment with a focus on patient-centred care and redirected and managed conflict around discussion of the patients' clinical needs. I ensured that all team members had an opportunity to speak and express their opinions.

What could you improve next time? *

I could improve upon my time management the next time I run a similar meeting. I was focusing on making sure everyone had ample time to speak and lost track of time. I would also like to provide more structure to the meeting to assist in this including in delegating responsibilities.

Assessor Feedback

The below section is to be filled in by the Assessor

How much supervision did the trainee require during this activity?

4- able to act with supervision at a distance (i.e, limited access to a supervisor)

What did the trainee do well? *

Ahmed created a very open and collaborative team meeting environment, allowing all team members to speak and be heard. He did this by setting a tone in his chairing style and by ensuring quieter members of the team contributed and that civility was maintained by all staff. This also demonstrated leadership skills and competencies.

What could the trainee improve upon to improve their performance? *

Ahmed could work on redirecting team members when required to ensure meetings run in a timely manner. Whilst he created a strong open environment and made sure all members are heard he needs to ensure that efficiency and clarity are also priorities when managing multiple concerns and priorities. I believe this is an area that Ahmed will be able to improve in with more opportunities to perform these activities.
